Vision

Achieving more together.

Mission

AI Sigl Community of Agencies is a collaborative community network that provides cost-effective real estate, business services and philanthropic support to a growing array of independent human service agencies that serve children and adults with disabilities® and special needs.

History

In 1962, parents and providers dreamed of a unique way for rehabilitation agencies to share space while maintaining distinct missions and programs. They boldly envisioned a model building with fully accessible classrooms, therapy suites, and work areas adapted for each agency, as well as a therapeutic swimming pool and gymnasium open to all. With the help of a caring community, these innovators built their dream house, and the AI Sigl Center opened its doors at the original Elmwood Campus in 1968.

Today we are known as AI Sigl Community of Agencies. Together with the 6 Member Agencies we have grown from serving 3,000 people with disabilities® in the early years to now serving over 55,000 people on six campuses.

2018 Annual Financial Report

Consolidated For Annual Report

In Millions
